

### **Problem Objectives**

<b>Date</b>	26 September 2022
<b>Team ID</b>	PNT2022TMID21501
<b>Project Name</b>	Fertilizers Recommendation System For Disease Prediction

#### **Team Members:**

- 19IT035 – Ishwarya K
- 19IT038 – Jayasree G
- 19IT042 - Juhi Padmaja P
- 19IT077 – Reshma A

#### **Problem Objectives:**

- To know how to preprocess the images.
- Applying the CNN algorithm to the dataset.
- How deep neural networks detect the disease.
- To know how to find the accuracy of the model.
- T build web applications using the Flask framework.
