

## **Project Design Phase – 1**

### **Solution Architecture**

<b>Date</b>	26 September 2022
<b>Team ID</b>	PNT2022TMID21501
<b>Project Name</b>	Fertilizers Recommendation System For Disease Prediction
<b>Maximum Marks</b>	4 Marks

#### **Team Members:**

- 19IT035 – Ishwarya K
- 19IT038 – Jayasree G
- 19IT042 - Juhi Padmaja P
- 19IT077 – Reshma A

#### **Solution Architecture:**

1. Solution architecture is the detailed and structured description of the features, process and behavior of the solution. It acts as the base of the solution to define, deliver, manage and operate the development process of the solution. It identifies the alternatives of the solutions and its components. It is a basic architecture of the offered solution.
2. Now, in the contemporary times, it is the practice that Solutions Architect prepares with the help of the consultants, project managers and the developers. The solution architect defines the relationship of the process internally and to the environment by considering the principles of design and keeping the scope of evolution in mind. It is meant to support, automate and adapt to the business ideas and goals
